OFFICE OF THE ACCOUNTANT-GENERAL OF THE FEDERATION

PREFACE TO THE
FEDERAL GOVERNMENT
FINANCIAL STATEMENTS
AND ANNUAL REPORT OF THE
ACCOUNTANT-GENERAL
OF THE FEDERATION FOR
THE FINANCIAL YEAR ENDED
31ST DECEMBER, 2017

Mrs Zainab Shamsuna Ahmed, Hon. Minister of Finance, Budget and National Planning

am pleased to present the Annual Financial Report of the Accountant-General of the Federation for the financial year ended 31st December, 2017. The report contains the financial operations as well as the Consolidated Financial Statements of the Federal Government of Nigeria for the reviewed period. This is the second IPSAS Accrual Consolidated General Purpose Financial Statements(GPFS) for the Federal Government of Nigeria (FGN). The GPFS is for all FGN controlled entities that are numbered Nine Hundred and twenty four (924).

The Consolidated GPFS of the Federal Government was prepared based on the relevant provisions of the Constitution of the Federal Republic of Nigeria 1999, as amended; Finance (Control and Management) Act 1958 now CAP F26LFN 2004; Fiscal Responsibility Act, 2007; Financial Reporting Council Act, 2011; the Financial Regulations 2009; relevant laws of the Federation, other extant rules & regulations and in line with the provisions of IPSAS.The GPFS shows the financial performance and position as well as the Cash flows of the FGN for the year ended 31st December, 2017.

This preface and commentary should be read in the light of the information and explanatory note contained in the GPFS.

REVENUE PERFORMANCE

OPERATING EXPENSES

The operating expenses of the FGN decreased by ₩1,370.10 billion(or 19.39 percent) from ₩7,066.23 billion in 2016 to ₩5,696.13 billion in the year under review.

PREFACE Contd.

The decrease was largely due to reduction in the transfer to other government entities and overheads cost. The operating expenses consist of salaries & wages, employees benefits, Overheads cost, Public Debt Charges, Grants & Contributions etc.

The net operating deficit of the Federal Government for the year ended 31^{st} December, 2017 improved by \$1,094.72 billion from \$3,401.23 billion deficit in 2016 down to \$2,306.51billion in 2017. The gain on Foreign Exchange Transaction and assets disposal of \$126.42 billion and \$0.03 billion respectively further reduced the deficits for the period to \$2,180.06 billion.

STATEMENT OF FINANCIAL POSITION

The FGN Net Assets was negative ₦ 16,937.96 billion as at 31st December, 2017 while that of 2016 stood at negative ₦13,405.07 billion.

The total FGN assets for the year is \(\frac{1}{2}\),643.94 billion, which consist of a negative figure of \(\frac{1}{2}\)159.91billion as Total Current Assets and \(\frac{1}{2}\),803.85 billion as Non-Current Assets at the end of the period under review.

The legacy assets of the FGN are yet to be recognized in the books of accounts, taking advantage of the provision of IPSAS 33 on guidelines for First Time Adopters.

Total liabilities of ₩19,581.90 billion was also reported during the period representing Current and Non-Current Liabilities of ₩5,068.48 billion and ₩14,513.42 billion respectively.

Contingent Liabilities and Contingent assets of the Federal Government were not reported by any of the FGN controlled Entities in the Statement of Financial Position.

CASH FLOWS:

The Federal Government recorded a deficit of \(\frac{1}{2}\),078.52 billion from Operating activities for the year ended 31st December, 2017 and the closing Cash Position of \(\frac{1}{2}\)400.34 billion negative.

This Report is issued to meet specific information needs that are useful in assessing the financial activities of the Federal Government of Nigeria by service users and resource providers, which include: governments, the citizens, elected representatives, taxpayers, investors, creditors, research institutions, banks, suppliers, the media, development partners and International Community.

I am particularly pleased with the commitment and doggedness of the Accountant-General of the Federation and all the many employees of the Treasury in generating the second IPSAS Accrual Basis GPFS.

My profound gratitude goes to the Auditor-General for the Federation and his team for the systematic and in-depth examination of the Financial Statements to provide the needed assurance to users.

The Financial Statements of the Federal Government of Nigeria for the year ended 31st December, 2017 having been examined and certified by the Auditor-General for the Federation is hereby published for information and use by all stakeholders and the general public.

Mrs Zainab Shamsuna Ahmed,

Hon. Minister of Finance, Budget and National Planning

C 1 MacroEconomic Developments

1.0 Commentary and Performance Analysis

1.1 Overview

he General Purpose Financial Statements (GPFS) of the Federal Government of Nigeria are prepared in accordance with the provision of International Public Sector Accounting Standards (IPSAS) Accrual Basis of accounting. It is the consolidated result of all public sector entities wholly and partially funded from the Consolidated Revenue Fund (CRF) and Other Public Fund of the Federal Government. Nigeria operates a Constitutional Democracy that recognized three tiers of government (Federal, States and local Governments). The Collation, preparation and publication of the Federal Government Financial Statements are statutory requirement. The Treasury has the mandate to annually prepare a set of accounts and have them audited by the Auditor-General for the Federation who is required to lay them before the two chambers of the National Assembly after examination in line with extant law.

The Consolidated GPFS reports on the financial performance and position of the Federal Government of Nigeria public sector through a statement of Financial Performance, a statement of financial position (or balance sheet), a statement of cash flows, a statement of Net Asset/Equity, a Statement of Comparison of Budget and Actual Amounts; and Notes to the financial statements together with other disclosures providing additional detail and analysis of the 924 PSE consolidated including schools, Health and Research institutions. It does not include the accounts of the States and Local Government Council in the Federation.

The year 2017 results at a glance show income of ₦3,617.65 Billion and expenditures of ₦5,696.13 Billion compared with the income of ₦3,723.25 Billion and expenditures of ₦7,066.23 Billion in 2016. The Statement of Financial Position shows, total assets of ₦2,643.94 Billion and liabilities of ₦19,581.90 Billion relative to the ₦2,260.56 Billion and ₦15,665.63 billion respectively for 2016.

The consolidated result for the year excludes the financial operations of Government Business Enterprises (GBE) while taking into account there operating surplus.

1.2 The Global Economy

The global economic activities in 2017 continued to strengthen, with Global growth estimated at 3.7 percent, which is 0.1 percentage point higher than projected; occasioned by cyclical recovery, reflecting a rebound in investment, manufacturing activity, and trade as a result of increased commodity prices, improved confidence and the general rising demand in many economics of the world, according to the International Monetary Fund World Economic Outlook (WEO).

The report further states that the pickup in growth has been broad based, with

remarkable upside surprises in Europe and Asia.

Also, the stronger momentum experienced in 2017 is expected to be carried into 2018 and 2019, with global growth revised up to 3.9 percent for both years mainly from advanced economies, where growth is now expected to exceed 2 percent in 2018 and 2019 on account of favorable global financial conditions and strong sentiment.

The report indicates that the aggregate growth forecast for the emerging markets and developing economies for 2018 and 2019 is unchanged, with marked differences in the outlook across regions.

The growth pickup in Sub-Saharan Africa (from 2.7 percent in 2017 to 3.3 percent in 2018 and 3.5 percent in 2019) is broadly as anticipated in the fall, with a modest upgrade to the growth forecast for Nigeria but more subdued growth prospects in South Africa, where growth is now expected to remain below 1 percent in 2018–19, as increased political uncertainty weighs on confidence and investment.

1.3 The Domestic Economy

The nation's Gross Domestic Product (GDP) sustained its positive growth since the economy's emergence from recession in the second quarter of 2017. This followed the third consecutive quarterly positive growth in real GDP following five quarters of contraction which started in the first quarter of 2016 and ended in the second quarter of 2017.

Data from the National Bureau of statistic (NBS) indicates that in the fourth quarter of 2017, aggregate GDP stood at $\pm 31,209,137.74$ million in nominal terms higher when compared to $\pm 29,169,058.99$ million in Q4 2016, resulting in a Nominal GDP growth of 6.99%. The growth is relatively lower to growth recorded in Q4 2016 at 12.49%.

Further review showed that 2017 recorded an annual growth rate of 12.05% higher by 4.25% compared to 2016 annual growth of 7.80% in nominal term. Also, the year 2017 recorded a real annual growth rate of 0.83% higher by 2.42% than -1.58% recorded in full year 2016.

The economy continued to show strong signs of recovery on account of public investment giving rise to increased housing construction at the federal and state levels, as well as shipping activities at the ports.

Despite the cheering report of the emergence of the Nigerian economy from the recession, the desired growth target is yet to be attained. Hence, complementary fiscal and monetary policies are required to sustain the growth momentum.

Below is the graphic quarterly real GDP growth for year 2015 to 2017

Figure 1.1: Quarterly GDP Growth Rate (Q1 2015 - Q4 2017)

Source: National Bureau of Statistic (NBS)

1.3.1 Oil Sector

Real growth of the oil sector was 8.38 percent (year-on-year) in fourth quarter 2017 according NBS report. This represents an increase of 26.08 percent when compared to the rate recorded in the corresponding quarter of 2016. The sector growth fell by 17.5 percent in the fourth quarter relative to the 2017 third quarter growth of 25.89 percent.

The annual growth of the oil sector stood at 4.79 percent higher than the previous year's growth of -14.45 percent. The Oil sector contributed 7.17 percent of total real GDP in fourth quarter 2017, up from the figure recorded in the corresponding period of 2016 and down from the preceding quarter, where it contributed 6.75 percent and 10.04 percent respectively. The sector's annual contribution was 8.68 percent in 2017 and 8.35 percent in 2016.

1.3.2 Non-Oil Sector

The non-oil sector of the Nigerian economy recorded an annual growth of 0.47 percent compared to -0.22 percent reported in 2016. The sector's growth in the fourth quarter was driven largely by Agriculture (Crop), Trade, Transportation and Storage. In real terms, the non-oil sector contributed 92.83 percent to the nation's GDP. This figure was lower than the 93.25 percent and higher than the 89.96 percent shares reported in the fourth quarter of 2016 and third quarter of 2017 respectively. The non-oil sector annual contributions were 91.32 percent in 2017 and 91.65 percent in 2016.

The annual contribution of agriculture to GDP was 21.06 percent in 2017 and this was lower than its contribution of 21.21 percent recorded in 2016. Annual growth rate recorded was 11.29 percent in 2017 and 9.61 percent in 2016. Crop Production

remains the major driver of the sector.

The modest growth of the economy witnessed in 2017 can be accredited to fiscal injections from the implementation of the Economic Recovery and Growth Plan (ERGP) and the improved supply of foreign exchange arising from an enhanced crude oil prices. Though the recovery was expected to support in the short to medium term, the economy remains in risk of declining into a more sustained recession if concrete and suitable monetary and fiscal policies that are already in place are not retained and improved on. Consequently, the likely fiscal stimulus and non-oil federal receipts, as well as enhancements in economy-wide non-oil exports, especially agriculture, manufacturing, services and light industries which are projected to drive the growth stimulus in the coming year must be pursued with rigor to achieve the desired sustained growth.

1.3.3 External Trade

During the review period, Nigeria aggregate export rose, considerably to ₩13, 987.45 billion, equivalent to 12.2 percent of GDP, above the ₦8,769.32 billion or 8.5 percent of GDP in 2016. The boost was attributed to the higher crude oil prices in the global market and improvement in domestic production. Also, non-oil export improved significantly, due largely, to the diversification drive of the Federal Government.

A further breakdown of export showed that crude oil revenues rose by 59.5 per cent to \$11,026.07 billion or 9.6 per cent of GDP, in the review period, above the \$6,912.72 billion or 6.7 per cent of GDP in 2016.

The value of non-oil export increased by 59.0 per cent to ₩1,074.80 billion in the period under review, above ₩675.91 billion in 2016, reflecting the outcome of progress in the diversification drive of the Federal Government and improved access to foreign exchange by exporters.

A breakdown of non-oil export by product showed that agricultural produce category, valued at N336.37 billion, accounted for the highest share of 31.3 per cent of the total. Within the category, export of cocoa beans, represented 10.4 per cent; followed by sesame seeds, 7.3 per cent; cashew nuts, 4.3 per cent; rubber, 3.3 per cent; fish and crustaceans, 2.7 per cent; and other agricultural produce accounted for the balance.

1.3.4 Exchange Rate

In the year 2017, there was a significant and gradual convergence between the rates at the Bureau-De-Change (BDC) and the Nigeria Interbank Foreign Exchange (NIFEX) market segments. Likewise, there was appreciable patronage at the Investors' and Exporters' (I&E) window of the foreign exchange market. This development was influenced by the increased confidence of foreign investors and the preference of Nigerian investors' and exporters' for the window compared with all other windows. Data from the CBN indicates that the I&E window had increased liquidity and boosted

confidence in the market with over US\$18.70 billion in transactions since its introduction in April 2017. The report also showed that, Naira/Dollar exchange rate at the Official/Inter-Bank markets appreciated slightly from \\305.89/US\\$ in September to \\305.62/US\\$ in October before depreciating again to \\305.90/US\\$ and \\306.31/US\\$ in November and December 2017 respectively. On the other hand, the monthly average exchange rate of the Naira/Dollar at the Bureau De-Change (BDC) appreciated from \\365.55/US\\$ in September to \\362.21/US\\$, \\362.41/US\\$ and \\362.83/US\\$ in October, November and December 2017 respectively.

1.3.5 External Reserve

Nigeria's gross official (External) reserves, at end-December 2017, stood at US\$39.35 billion, an increase of US\$12.36 billion, or 45.8 per cent over the position at end of December 2016. Increase in oil-related revenues, TSA and third party receipts, security lending cash collateral, and Eurobond proceeds accounted for the improvement,

Analysis of the External reserves by ownership at end-December 2017 showed that the share of the CBN, Federal Government and Federation stood at US\$30.17 billion, US\$6.73 billion and US\$2.45 billion, respectively. This represented 76.7 percent, 17.1 percent and 6.2 percent, respectively, of the total reserve.

The external reserves, at end-December 2017, could finance 14.4 months of import (goods) or 9.4 months (goods and services), compared with 9.2 months of import (goods) or 6.9 months (goods and services) at end-December 2016.

CBN's Report further revealed that aggregate earnings from the management of external reserves in 2017 amounted to N77.74 billion (US\$0.25 billion), an increase of 44.2 percent above the N43.40 billion recorded in 2016. This represented an increase of N36.18 billion or 87.1 percent over the budgeted amount of N41.55 billion in the year under review. The increase was due largely, to reserves accretion.

2017 Budget Highlight

2.0 2017 Budget Highlight

2.1 INTRODUCTION

The Federal Government of Nigeria budgeted the sum of \(\frac{\text{\$\text{\$\frac{4}\$}}}{7.44}\) trillion for the fiscal year 2017 pursuant to section 81 of the 1999 Constitution as amended. The Budget was tagged "Budget of Recovery and Growth" and was linked with the Economic Recovery and Growth Plan (ERGP) which was meant to achieve sustained and inclusive growth of the Nigerian economy through the provision of infrastructure, optimizing the use of local content and empowering local businesses.

The Budget was also used as an instrument to advance the partnership between the public and private sectors as well as assist in attracting the necessary resources required to stimulate economic growth through fiscal, monetary and trade policies that would facilitate and support economic activities.

The 2017 budget was planned to improve the processes of re-balancing the economy, exiting recession and shielding it from future external and internal shocks. It was prepared at a time the Nigerian economy was in recession while the global economy was showing signs of recovery and the price of oil which is the main source of revenue and foreign exchange for the nation was also beginning to recover.

2.1.1 The Federal Government Policy thrust

The fiscal framework underlining the formulation and assumptions of 2017 budget was guided by the development in the domestic and global economic. Policy measures were taken to relieve the domestic economy by investing higher on infrastructure.

The 2017 Budget of Recovery and Growth was designed to actively pursue macroeconomic policies and growth strategies that will reflate the economy by investing in key infrastructure and social development. It was developed using the Zero Based Budgeting (ZBB) system to improve efficiency and effectiveness of budget outcomes.

The budget was also guided by the 2017-2019 Medium Term Fiscal Framework (MTFF) which provides the medium term fiscal and overall macroeconomic direction of government.

2017 Budget Priorities

The key objectives are:

- Stability and greater coherence between monetary, fiscal and trade policies while guaranteeing security for all;
- Diversify the economy and create jobs with emphasis on agriculture, manufacturing, solid minerals and services;

- Investments in human capital development especially in education and health;
- Wider social inclusion through job creation, public works and social investments
- Construction of high quality national infrastructure and an improved business environment leveraging locally available resources; and
- Improving governance by enhancing public service delivery as well as securing life and property.

2:1.2 2017 Budget Assumptions

The 2017 budget was premised on the following assumptions:

- a. Crude oil production of 2.200 million barrels per day (MBPD)
- b. Crude oil benchmark price of USD 44.50 per barrel
- c. Exchange rate of NGN 305/USD
- d. GDP growth rate of 2.5%
- e. Inflation rate 15.74%
- f. Deficit of ₩2,356.77 Billion
- g. Fiscal deficit of 2.18% of GDP

2.2 Federation Revenue Budget

Revenue generation, collection and accounting are based on the economy reality and existing laws of the Nation. The revenue that accrued to the Federation is inflows from Oil (Sales, Petroleum Profit Tax, and Royalties) and Non-oil (Company Income Tax, Import Duties, and Excise Duties, among others).

Gross Federally collectible revenue was estimated in the 2017 Fiscal Frame work at ₩10,737.10 billion, consisting of ₩5,334.45 billion (or 49.68%) oil revenue and ₩5,402.65 billion (or 50.32%) non-oil revenue.

The Federation projected distributable revenue of ₹6,785.07 billion in year 2017 as against ₹4,303.59 billion for the preceding year. This excluded the amount budgeted for VAT revenue and augmentation from other sources for the period.

The increase in the projection of \$2,481.48 billion for the period reflects the recovery of Oil price and global economic activities.

Table 1 below shows statutory revenue budget of the Federation:

Table1: Statutory Federation Revenue Budget (2016 – 2017)

Beneficiary	2017 Budget (₦ Billion)	2016 Budget (₦ Billion)
FGN 52.68%	3,574.38	2,267.13
State 26.72%	1,812.97	1,149.92
LG 20.60%	1,397.73	886.54
Total Revenue	6,785.07	4,303.59

2.2.1 Federation Revenue Performance

The gross federally-collected revenue for the year 2017 stood at ₩6,875.93 billion against the ₩5,121.43 billion realized in 2016 but below the ₩10,737.10 billion (or 64.04%) projected. The increase of ₩1,754.50 billion (or 34.26%) was attributed largely, to the gradual rise in crude oil price at the international market and the various initiative of the government aimed at diversifying the economy toward non-oil.

2.2.2 Oil Revenue Performance

In year 2017, the gross Oil revenue generated was \\4,084.35 billion against the \\5,334.45 billion projected. This shows a shortfall of \\1,250.10 billion (or 23.43 percent) below the annual estimate but \\1,388.92 billion (or 51.53 percent) above the \\2,695.43 billion realized in year 2016. Net Oil Revenue of \\2,319.70 billion accrued into the Federation Account during the year, reflecting a shortfall of \\2,055.92 billion (or 46.99 percent) when compared with the annual projection of \\4,375.62 billion.

Further analysis of the revenue by sub-heads showed that only Crude Oil Sales of \$2,025.49 billion and Other Oil and Gas Revenue of \$13.02 billion exceeded their annual estimates of \$1,683.29 billion and \$5.86 billion by \$342.21 billion (or 20.33 percent) and \$7.16 billion (or 122.32 percent) respectively while all other remaining oil revenue sub-heads fell below their respective annual projections.

Federally Collected Revenue

Non-Oil
Oil

Figure 2.1: Composition of Revenue: Oil and Non-oil Revenue – 2017

These low performances were the reflection of the dynamics in the price and demand of oil at the international market during the year.

Further review showed the sum of \(\pm\)1,236.98 billion was deducted from gross oil receipts for Joint Venture Cash (JVC) calls, \(\pm\)117.17 billion Transfer to Excess Crude Oil, on PPT from Oil and \(\pm\)29.32 billion as DPR cost of collection. Also, the sum of \(\pm\)346.62 billion was deducted as 13% derivation of net oil revenue for distribution to the Oil producing States.

2.2.3 Non - Oil Revenue Performance

The gross Non-Oil Revenue generated in the period under review amounted to ₩2,791.58 billion representing 40.6 percent of total federally collected revenue. This indicates an increase of ₩365.58 billion above the sum of ₩2,426.00 billion realized in year 2016. Also, the amount translates to a shortfall of ₩1,467.61 billion (or 34.46 percent) below the annual estimate of ₩4,259.19 billion.

The under performance of the total gross non-oil revenue also affected the net non-oil revenue of \$2,624.38 billion that accrued into the Federation Account during the year. The net non-oil revenue inflow denotes a shortfall of \$1,436.18 billion (or 35.37 percent) when compared with the annual projection of \$4,060.56 billion.

Further review revealed that receipts from all the non-oil revenue items within the period fell below their corresponding estimates. A breakdown of the 2017 figure showed Value Added Tax of \\ 957.27 billion, Company Income Tax of \\ 1,206.29 billion, Customs & Excise Duties of \\ 579.56 billion and Special Levies of \\ 48.47 billion fell short by \\ 842.73 billion (or 46.82 percent), \\ 535.76 billion (or 30.75 percent), \\ 35.81 billion (or 5.82 percent) and \\ 53.30 billion (or 52.37 percent) respectively when compared with their annual projections.

On the other hand, revenue dividend by companies / Investments funded by FAAC, Solid Minerals & other Mining Revenue and Actual Balances in Special Accounts which had 2017 annual projections of ₹61.0 billion, ₹2.52 billion and ₹13.70 billion respectively yielded nothing during the review period.

2.3.1 Federation Account Distributable Revenue

The distributable balance of the Federation account stood at ₹5,279.75 billion representing ₹969.32 billion (or 22.49%) increase relative to ₹4,310.43 billion of 2016. Included in the balance are ₹311.84 billion Exchange Gain Difference, ₹55.32 billion NNPC Refund to Federal Government, ₹258.24 billion Excess PPT Savings and ₹0.94 billion Excess Bank Charges on Federation Account. ₹417.14 billion was deducted and shared among the oil-producing states as 13% Derivation Fund, while ₹43.93 billion, ₹48.59 billion and ₹29.32 billion was also deducted as cost of collection to the revenue generating agencies (NCS, FIRS & DPR) respectively. The sum of ₹123.24 billion was transfer to Excess PPT during the period. Data from Federation Account revealed that the sum of ₹37.51 billion was further deducted as FIRS Refund and Mobilization Fees for Auditors and ₹0.08 billion as NCS Refund leaving the distributable balance at ₹4,579.95 billion shared among the three tiers of government as detailed in table 3 below.

Table 2: Federation Statutory Revenue Distribution (2014 – 2017)

Beneficiary	2017 Budget (₦ Billion)	2017 Actual (₦ Billion)	2016 Actual (₦ Billion)	2015 Actual (₦ Billion)	2014 Actual (₦ Billion)
FGN	3,574.38	2,424.70	1,964.62	2,488.85	2,877.13
State	1,812.97	1,216.99	957.95	1,223.85	1,459.32
LG	1,397.73	938.26	738.54	943.53	1,125.08
Total	6,785.07	4,579.95	3,661.11	4,656.23	5,461.53

The breakdown of the Statutory distribution among the three tiers of government showed that the Federal Government (including Special Funds) received the sum of ₩2,424.70billion; state governments, ₩1,216.99 billion; and local governments, ₩938.26 billion. The actual distribution is 32.5 percent below 2017 projection and ₩918.84 billion higher than the 2016 distribution. The increase in the Federation revenue affected the budget performance of the three tiers of Government that depend largely, on revenue from the Federation.

2.3.2 Value Added Tax (VAT)Pool Account

The aggregate of ₹967.66 billion was generated into the VAT Pool Account.

The amount indicate an increase of ₩156.66 billion when compared to the ₩811 billion realized in year 2016. During the period under review, the sum of ₩36.69 billion was deducted from VAT Pool Account as Cost of Collections to FIRS.

The ₩928.95 billion (Net) VAT revenue was distributed to the three tiers of Government in line with the existing VAT pool account sharing formula. The Federal Government (including the FCT) received ₩139.34 billion (15%), while States and local governments shared №464.48 billion (50%) and №325.13 billion (35%), respectively. The increase in the VAT revenue was on account of the diversification policies of the Federal Government toward non-oil revenue.

Table 3: Value Added Tax (VAT) Pool Account Distribution (2014 – 2017) Summary

Beneficiary	2017 Budget (N Billion)	2017 Actual (₦ Billion)	2016 Actual ₦ Billion)	2015 Actual (₦ Billion)	2014 Actual (₦ Billion)
FGN	259.20	139.34	116. 78	112.14	114.37
State	864.00	464.48	389.28	373.79	381.23
LG	604.80	325.13	272.49	261.65	266.86
Total	1,728.00	928.95	778.55	747.58	762.46

2.3.3 Aggregate Federation Revenue 2017

The aggregate revenue of the Federation in the year under review was ₩5,279.75 billion, this comprised of the Statutory Revenue, ₩4,653.40 billion; Exchange Gain, ₩311.84 billion; NNPC Refunds, ₩55.32 billion; Excess PPT, ₩258.24 billion; Excess Bank Charges Recovered №0.94 billion; and VAT Pool Account, №967.66 billion. This was distributed to the three (3) tiers of government after all transferred and statutory deductions.

2.3.4 Independent Generated Revenue (IGR)

The IGR are exclusive revenue of each of the tiers of the governments. The Federal Government exclusive revenue includes operating surplus, dividends, rent on government properties, trademarks and sales of government properties among others. All such revenues partly finance the respective governments annual budget. The FGN IGR are collected by the respective MDAs and remitted into the TSA.

2.4 Special Trust Funds

These are funds that derive their income from the Federal Government share of the Federation Account. The Federal Government received 52.68% of the Federation Revenue out of which 48.5% is used to finance the budget, while the balance of 4.18% is distributed into the Special Trust Funds/Accounts and FCTA as follows:

- i) Federal Capital Territory 1%
- ii) Ecology & Derivation 1%
- iii) Statutory Stabilization 0.5%
- iv) Development of Natural Resources 1.68%

Consequently, The 52.68% Federal Government share of the Federation revenue was further redistributed between the FGN, FCTA and the three (3) Special Accounts after the statutory deductions of the sum of \(\frac{\text{\text{N}}}{181.86}\) billion as follows:

Table 4: Re – Distribution of FGN Share of Statutory Allocation

s/NO	DESCRIPTION	2017 Budget (₦ Billion)	2017 Actual (₦Billion)	2016 Actual (₦ Billion)
1	FGN (CRF Account)	3,290.76	2,050.91	1,731.39

5	FCT -Abuja	67.85	45.57	36.94
	TOTAL	3,574.37	2,242.85	1,886.92

The Sum of N181.4 billion and N0.46 billion was deducted from FGN and FCTA respectively that make up the N181.86 billion.

2.5 Other Public Funds

There are forty – two (42) other Public Funds. This category of Special Accounts derives their income directly from revenue collection sources particularly NCS, FIRS and DPR on behalf of the benefitting agencies. The details of the ownership, purpose and status of each of the accounts is as stated in the table below:

Federal Government Budget Performance Appraisal

3.0 Federal Government Budget performance appraisal

3.1.0 Revenue Performance

The FGN planned to finance the 2017 budget of \(\frac{1}{2}\),441.18 billion with the sum of \(\frac{1}{2}\),084.40 billion revenue estimates from its 48.50 percent share of FAAC, 14 percent share of VAT, Independent Generated Revenue, Unspent Funds of previous year and Balances of Special Accounts at the end of year 2016. The performance of the revenue items however, fell short of the annual projections.

3.1.1 Statutory Allocation

Federal government share of the Federation's revenue for the period under review stood at\2,424.70 billion from \1,964.62 billion in 2016 reflecting an increase of \460.08 billion (or 23.42%). Further analysis indicated that \181.86 billion was deducted at source while the balance of \2,242.85 billion was re-distributed among FGN, FCTA and the Special Accounts. The Federal Government received the net sum of \2,050.91 billion from the Federation Account as Statutory revenue in 2017 against the \1,731.39 billion of 2016. This excludes the cost of collection received by DPR, NCS and FIRS that form part of FGN budget.

3.1.2 Value Added Tax

The federal Government received the sum of ₩139.34 billion against the №259.20 billion projected indicating ₩119.86 billion shortfalls. However, this is №22.56 billion (or 19.32%) higher than the №116.78 billion received in 2016. The 15% (or №139.34 billion) share of VAT Pool Account was re-distributed between FGN and FCT. While the Federal Government received №130.05 billion, FCT received №9.29 billion representing 14 percent and 1 percent share of VAT revenue in line with the VAT Act. Further analysis of the VAT pool Account showed that №36.69 billion and №2.02 billion was deducted as cost of collection to FIRS and NCS respectively in the year under review before the distribution to the three tiers of government.

3.1.3 Independent Generated Revenue of FGN

The relentless effort of the FGN to diversify the economy away from Oil that has being the main source of revenue to the three (3) tiers of government with the attendant challenges of price fluctuation and pipeline vandalism over the years to Non − Oil has started yielding positive result. There was a significant increase in the FGN Independent revenue reported in the reviewed period of №619.05 billion compared to the №253.32 billion reported in 2016. That showed an increase of №365.73 billion or 144.37 percent.

Despite the improvement observed, the amount fell below expected target in the review period. More revenue sources of the government is being identified and harnessed while leakages in the system are being blocked through e-collection.

The detailed performance of revenue for three (3) years is analyzed below:

Table 6: Detailed Revenue Performance (2015 - 2017).

3.2.0. Expenditure Performance

Federal Government aggregate expenditure for the fiscal year 2017 stood at ₩6,578.97*billion, against the ₩7,441.18 billion projected for the period. The amount is ₩862.21 billion (or 11.59%) less than the annual estimate. The aggregate expenditure incurred in the year is lower than the sum of ₩7,868.72**billion expended in the preceding year.

Out of the \(\pm\6,578.97\) billion expended, Non-Debt Recurrent expenditure amount to \(\pm\4,246.01\) billion, Finance cost \(\pm\1,450.12\) billion and Capital expenditure \(\pm\882.84\) billion. Further review indicates that Statutory Transfer accounted for \(\pm\434.41\) billion for the reviewed period. The expenditures performance was affected by non-realization of the revenue target captured in the budget.

^{}** Includes ₦802.49 billion (Purchase/Construction of PPE, Investment Property and Intangible Assets)

3.2.1 Recurrent Expenditure

In 2017 fiscal year, the recurrent expenditure of the FGN accounted for 86.58 per cent of the aggregate expenditure. Personnel cost rose by 50.95 per cent to ₦3,387.48* billion when compared to the preceding year sum of ₦2,244.14 billion. This represents 59.47per cent of recurrent expenditures or 51.49 per cent of total expenditures.

Further analysis shows that Overhead Cost, Grants & Contribution, Subsidies and Public Debt charges accounted for 7.65 percent, 1.01 percent, 0.11 percent, and 25.46 percent of the recurrent expenditures against 14.09 percent, 10.31 percent, 1.58 percent and 27.36 percent respectively of the preceding year.

Also transfer to Other Government Entities amount to ₩359 billion compared to the ₩2,291.02 billion in 2016. This showed 84.33 percent decline of total transfer. The increase in the personnel cost during the period necessitates the substantial decrease in amount released for overheads costs and other expenditure items.

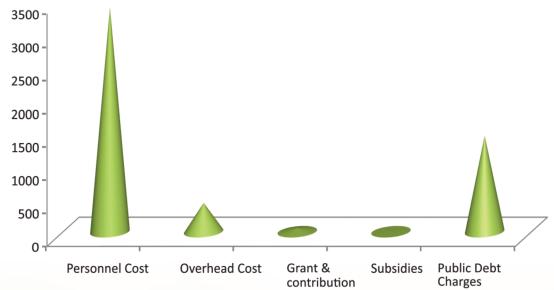

Figure 3.3: Federal Government Expenditure Component, 2017(₦ billion)

* Personnel cost includes Employees Benefits of ₦ 59.65 billion

3.2.2: Capital Expenditure

The sum of ₩882.84 billion was invested in infrastructural development and assets acquisition in the year under review compared to the ₩831.75 billion of the 2016. This accounted for 13.42 percent of Federal Government aggregate expenditure as at 31st December, 2017.

The sum of ₩1,568.24 billion was released by the Treasury out of the ₩2,174.49 billion

appropriated for capital expenditure for the fiscal year 2017 as at 12th June, 2018. This excluded the capital expenditure from IGR, Transfers, Loans and Other Public Funds. However, actual amount expended on capital as at the reporting date 31st December, 2017 stood at \\$82.84 billion only while the balance was incurred in 2018. Funds were released to priority sector particularly, Power, Road, Rail, Housing and Aviation as well as the provision of physical and food Security to stimulate economic activities and growth. \\$1,452.43 billion was utilized out of the \\$1,568.24 billion released for the fiscal year 2017 leaving the balance of \\$115.81 billion as unspent. Implementation of the budget was however, challenged by the delay in the presentation of the 2017 Appropriation Bill to the National Assembly and non realization of revenue target. Capital expenditure was extended to 30th June, 2018 arising from the delay in the passage of the bill and signing into law the Act by the Acting President. The Capital budget implementation was therefore negatively affected by its' late passage and commencement in June, 2017 thereby adversely affecting capital project execution.

3.2.3: Statutory Transfer

The sum of ₩434.41 billion was transferred to statutory bodies in year 2017 to finance their operations (Personnel, Overhead and Capital expenditures). This accounted for 6.6 percent of aggregate expenditure for the fiscal year 2017. Further analysis of the releases shows the total amount received by each of the statutory body: National Assembly (NASS) №125 billion, National Judicial Council (NJC) №100 billion, Independent National Electoral Commission (INEC) №45.00 billion, Universal Basic Education Commission (UBEC) №95.19 billion, Niger Delta Development Commission (NDDC) №64.02 billion, Public Complaint Commission (PCC) №4.00 billion, and National Human Right Commission (NHRC) №1.20 billion. These transfers form part of government expenditures for the period.

3.3 FGN Fiscal Balance and Financing

At an aggregate budgeted expenditure of ₦7,441.18 billion and inflows of ₦5,084.40 billion, the FGN projected a primary deficit of ₦2,356.77 billion for the year ended December 31, 2017. This accounted for an increase of ₦152.03 billion (or 6.9%) relative to a budgetary deficit of ₦2,204.74 billion in 2016 and represented 2.18 percent of GDP. Actual deficit for the year 2017 stood at ₦2,180.06 billion.

3.3.1 Deficit Financing

The Federal Government planned to finance the budgetary deficit of №2,356.77 billion through earnings from proceeds of sale of government properties of №25 billion, Privatization Proceeds of №10 billion and new borrowings of №2,321.77 billion. However, some of the projected financing items did not materialize thereby deepening borrowing to finance the budget and refinancing of matured debt securities.

3.3.2 Debt Financing

Debt financing has come to be the most effective means of financing the budget and critical infrastructure development worldwide. This development has led to what is referred to as public debt stock which is now categorized into External and Domestic debt with various maturity date and interest rates. Federal Government total debt is grouped into External Loan and Domestic Loan.

The Debt Management Office (DMO) is the Institution saddled with the responsibility of ensuring efficient public debt management in terms of a comprehensive, well diversified and sustainable portfolio, supportive of Government and Private sector needs as articulated in Part III, Section 6 of the Debt Management (Establishment) Act 2003.

3.3.2.1 Nigeria's Public Debt

Nigeria's total public debt as at 31st December, 2017 rose to ₩21,725.77 billion (US\$70,999.26 Million) compared to ₩17,504.42 billion (US\$57,391.53 million) in 2016. Representing an increase of ₩4,221.35 billion (US\$13,607.73 million) or 24.12 percent. Non realization of revenue target during the year and the level of deficit in the 2017 Appropriation Act necessitated the increase in public debt stock required to be funded through both domestic and external borrowing as well as refinancing of matured debt securities.

Reports from DMO showed domestic debt constituted the greater portion of the public debt accounting for 73.36 percent while external debt stock represents about 26.64 percent of the total debt as at 31st December, 2017.

Breakdown of the debt stock indicates that the External debt stood at ₩5,787.51 billion (US\$18,913.44 million), while domestic debt stood at ₩15,938.26 billion (US\$52,085.82 million). Further analysis shows that out of the external debt stock of US\$18,913.44 outstanding, FGN component was US\$14,796.31 million while the balance of US\$4,117.13 million was owed by the States and FCT.

Sources: DMO & OAGF

According to data from DMO, the ratio of Nigeria's Total Public Debt-to-GDP in 2017 was 18.20 percent compared to16.40 percent in 2016 which was still within the Country's specific limit of 19.39 percent in the medium-term, up to 2017 and far below the Country Policy and Institutional Assessment (CPIA's) threshold of 56.00 percent for countries in Nigeria's peer-group and West African Monetary Zone (WAMZ) convergent threshold of 70.00 per cent. Also, a new Country-Specific Debt Limit for Total Public Debt-to-GDP has been set at 25 percent for medium —term, 2018 to 2020.

3.3.2.2 FGN Debt Portfolio

The FGN's debt portfolio rose to \\$18,026.28 billion at year end 2017, from \\$14,374.04 billion in 2016, representing an increase of \\$3,652.24 billion or 25.41 percent. The increase was occasion by the funding need of the 2017 budget deficit and refinancing of matured debt securities. The debt stock comprised of External Loan Stock of \\$4,527.67 billion (US\$14,796.31Million) and Domestic Debt Stock of \\$13,499.53 billion. Data from the DMO reviewed further that the External Loans are from both Official (Bilateral and Multilateral) and Commercial (Eurobonds and Other Commercial) Creditors.

^{*} External Debt includes those of the States and FCT

^{**}Actual Domestic Debt stock for 32 States & FCT were as at December 31, 2017, while 3 States (Akwa- Ibom, Katsina & Lagos) were as at September 30, 2017, and Borno State (June 2017) Official exchange rate of ₦306.00/US\$1 as at 31st December, 2017

3.3.2.3 FGN External Debt Stock

The Federal Government external debt stock outstanding as at 31st December, 2017 was US\$14,796.31 million. The breakdown of the external debt portfolio indicates that Official Creditors (Multilateral and Bilateral) accounted for the bulk of the debt stocks totaling ₦2,599.87 billion (US\$8,496.31Million) or 57.42 percent, while the private Creditors (Eurobonds and Diaspora Bond) accounted for ₦1,927.80 billion (US\$6,300.00 million) or 42.58 percent at the year-end 2017.The official creditors' debts are principally concessional loans, while commercial loans are obtained at nonconcessional or market terms.

The increase in 2017 external loans portfolio compared with 2016 was due to the implementation of policy of rebalancing public debt portfolio to attain an optimal composition of 60:40 for domestic and external respectively. The strategy is designed to reduce short term high cost domestic debt in favour of relatively cheaper and long tenured loans to minimize the debt service cost and create more borrowing space for the private sector in the economy.

The Official Creditors consist of World Bank(WB) Group and African Development Bank (ADB) sources (mostly low interest funds from multilateral financial institutions). Multilateral are mostly concessional loans and have been the major source of external debt financing.

These loans are owed largely to the International Development Association (IDA) and African Development Fund (ADF) and are also highly concessional. They constitute significant portion of the FGN external debt portfolio.

FGN Multilateral debt stock at the end of year 2017 stood at ₩1,942.73 billion (\$6,348.79million), while the bilateral loan stood at ₩657.14 billion (US\$2,147.52 million). However, French Development Agency (AFD), Exim Bank of China, Japan (JICA), Exim Bank India and Germany (KFW) accounted for the bilateral loans. Commercial loans on the other hand from the Private sources are non-concessional debts and accounted for ₩1,927.80 billion (US\$6,300.00 million).

3.3.2.4 Domestic Debt Stock

The stock of Federal Government domestic debt at year end-December 2017 was \\$13,499.53 billion, representing an increase of \\$1,516.28 billion or 12.65 percent compared to the \\$11,983.25 billion in 2016. The Domestic debts comprised of FGN Bonds, Nigerian Treasury Bills (NTB), Treasury Bonds, FGN Savings Bond, Sovereign Sukuk, Green Bond and Internal Loans from Other Public Funds and Loans reported by MDAs.

The Debt strategy adopted was to ensure the use of long-term securities to minimize refinancing risk and cost. Analysis of the domestic debt stock showed that the Stock of FGN Bonds and NTB rose to ₩8,715.81 billion and ₩3,579.80 billion in 2017 from ₩7,564.94 billion and ₩3,277.28 billion in 2016 respectively.

The FGN has continued to redeem the Stock of Treasury Bonds without new issue over the years. The total Treasury Bonds instruments outstanding at the end of year 2017 was \$\frac{1}{2}\$175.99 billion.

Public Finance Management Reform (PFMR)

4.1 Adoption of IPSAS Accrual Accounting

The decision by the Federal Executive Council to adopt the International Public Sector Accounting Standards (IPSAS) by the three tiers of Government in Nigeria is one significant step that has changed the way and manner budgeting, accounting and financial reporting are carried out in the Public Sector. To ensure that this reform is effectively implemented in the Ministries, Departments and Agencies (MDA), therefore, there is need to change the organizational structure of Finance and Accounts Department. To achieve this objective, an Inter-Ministerial Committee was set up to review the Organogram and functions of Finance and Accounts Department in all MDA. The new Organogram is to ensure Transparency and Accountability in the management of Government financial resources.

Furthermore, new books of accounts/other accounting records are to be developed for use by all MDA to ensure uniformity in accounting system.

The FGN transited from IPSAS Cash Basis to IPSAS Accrual Basis of accounting effective $\mathbf{1}^{\text{st}}$ January, 2016. The Financial Statements have been prepared taking advantage of the transitional exemptions permitted under IPSAS 33 for first time adaptors.

Assets acquired prior to commencement of IPSAS accrual basis of accounting are yet to be valued and brought into the books. Guidelines for First Time Adoption have been issued to guide MDA.

4.2 GIFMIS

Government Integrated Financial Management Information System (GIFMIS) is part of the National Strategy for Public Service reform, aimed at improving the acquisition, allocation, utilization and conservation of public financial resources using automated and integrated, effective and efficient information technology that facilitates strategic management of public financial resources and enhances accountability, transparency, cost effective public service delivery, economic growth and poverty reduction efforts.

Objectives of the GIFMIS

The overall objective is to implement a computerized financial management information system for the FGN, which is efficient, effective, and user friendly and which:

- (a) Increases the ability of FGN to undertake central control and monitoring of expenditure and receipts in the MDAs.
- (b) Increases the ability to access information on financial and operational performance.

- (c) Increases internal controls to prevent and detect potential and actual fraud.
- (d) Increases the ability to access information on Government's cash position and economic performance.
- (e) Improves medium term planning through a Medium Term Expenditure Framework (MTEF)
- (f) Provides the ability to understand the costs of groups of activities and tasks.
- (g) Increases the ability to demonstrate accountability and transparency to the public and cooperating partners.

In accordance with the contract signed on 10th May 2011, GIFMIS implementation and support was to be concluded by 30th June 2016. However, due to various factors especially the funding reliability after the closure of the Economic Reforms and Governance Project, implementation could not be completed. The Steering committee extension of support up to 31st July 2017 has since been further extended to 30th September 2018.

GIFMIS has continued to enable rollout of TSA because all MDAs of the Federal Government are on TSA. This is in collaboration with the CBN. The status as at 31st December, 2017 is as follows:

Status of Project Activities

Deployment of Treasury Single Account enabling functionality

S/N	INDICATOR	TARGET	DECEMBER 2017
1	Number of MDAs	All MDAs	766 MDAs
2	Budget Percentage	100%	92.39%

4.2.1 Deployment of Full GIFMIS functionality

In addition to TSA enabling functionalities that are deployed to all MDAs except foreign missions, full GIFMIS functionalities were deployed in eight pilot sites on 18th October 2015. During the year 2017, further deployment was initially delayed

pending datacenter enhancement and the focus was on support for the budget preparation and then measures to strengthen revenue collection, accounting and reporting. As at 31^{st} December 2017, the status is as follows

Table 9: GIFMIS/TSA Implementation Status

TRACKING INDICATOR	TARGET	DECEMBER 2017	
		No.	% AGE

In furtherance of the MoU signed between OAGF and FIRS on the measures to strengthen revenue collection and accounting using GIFMIS on the 28th October, 2013, the GIFMIS project team developed and deployed an electronic interface between the FIRS tax portal and GIFMIS. The interface is yielding the desired result of revenue collection and accounting in line with federal government policy direction.

4.3 TSA / E-Collection Scheme

The TSA e-Collection Scheme initiatives enthroned a new regime of centralized, transparent and accountable treasury management system designed to improve funds availability for funding government budget and developmental projects. It automates the collection of revenues, receipts and other monies payable to MDA as well as other parastatals directly into the TSA or designated TSA Sub Accounts using the CBN Payment Gateway.

Sub Accounts were created for qualified MDA and accesses granted to them and are linked to the TSA. Some of the funds earlier moped up in 2015 were returned to the respective MDA in line with the policy guidelines. All receipts in favour of MDA not being revenue or other monies meant for the CRF under extant laws, Rules and Regulations are deposited directly into their respective Sub Accounts. Also TSA e-Collection Pool Account which is a temporary holding account for funds whose final account of destination is not readily available or known at the time of collection was created. Funds on this pool account are transferred to the appropriate TSA Account or Sub Account once established.

This has reduced the need for government to borrow when idle funds exist in banks and ways and means charges. The system has enabled the federal government to determine its cash position at any giving time with better control and oversight over MDA operations. The TSA e-Collection Scheme initiative has also, improved implementation of fiscal and monetary policies. Gross collections to the TSA was over Eight trillion (N8 Trillion) as at 29th of December, 2017.

5.0 Federal Government GPFS

Introduction

General Purpose Financial Statements (GPFS) are a structured representation of the financial position and the transactions undertaken by an entity. GPFS are Statements issued periodically for users that are unable to demand financial information to meet their specific information needs. These users include Citizens, Voters, their representatives and other members of the public.

Pursuant to the policy of the Federation for all Public Sector Entities in Nigeria to adopt the provisions of IPSAS Accrual basis of accounting by 1st January, 2016 (i.e. the date of adoption of IPSAS accrual basis for the first time in Nigeria), PSEs that were hitherto on either Cash or Accrual basis of accounting are required to prepare IPSAS Accrual GPFS.

The components of the GPFS to be prepared by MDA are:

- Statement of Financial Performance;
- Statement of Financial Position;
- Cash flow Statement;
- Statement of Changes in Net Assets/Equity;
- Statement of Comparison of Budget and Actual Amounts; and
- Notes to the Financial Statements and Other Disclosures

FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST DECEMBER, 2017

Alhaji Ahmed Idris, FCNA Accountant-General of the Federation

5.1 Responsibility for the Financial Statements

These General Purpose Financial Statements have been prepared in accordance with the provisions of the Finance (Control and Management) Act 1958 now CAP F26 LFN 2004. Furthermore, the provisions of Section 49(3) of Fiscal Responsibility Act 2007 which states that "The publication of general standards for the consolidation of public accounts shall be the responsibility of the Office of the Accountant-General of the Federation" was adhered to through the issuance of National Treasury Circular TRY &B5/2016.OAGF/CAD/026/V.111/7 of 18th March, 2016. The Circular requires the preparation of the Financial Statements of the Federal Government based on International Public Sector Accounting Standards (IPSAS), Accrual Basis of Accounting, effective 1st January, 2016.

The Financial Statements have been prepared taking advantage of the transitional exemptions permitted under IPSAS 33 for first time adaptors.

To fulfill Accounting and Reporting responsibilities, the Accountant-General of the Federation is responsible for establishing and maintaining an adequate system of internal controls designed to provide reasonable assurance that the transactions recorded are within statutory authority and adequately disclose the use of all Public resources of the Government.

Responsibility for the integrity and objectivity of the Financial Statements rests entirely with the Government. These Financial Statements reflect government operations and financial position of Government as at 31st December, 2017.

Ahmed Idris, FCNA.

Accountant-General of the Federation.

5.2 Statement Of Accounting Policies

AUDITOR-GENERAL'S CERTIFICATE

Report of the Auditor-General for the Federation on the Consolidated Financial Statements for the year ended 31st December 2017: Audit Opinion

Qualified Opinion

I have audited the financial statements of the Federal Government of Nigeria, which comprise the statement of financial position as at December 31, 2017, and the statement of financial performance, statement of charges in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, except for the effects of the matters described in the Basis for Qualified Opinion Section of this report, the accompanying Financial Statements present fairly in all material respects, the financial position of the Federal Government of Nigeria as at December 31, 2017, and (of) its financial performance and its cash flows for the then ended in accordance with International Public Sector Accounting Standards (IPSAS).

Basis for Qualified Opinion

EXEMPTIONS TAKEN ON FIRST TIME ADOPTION OF IPSAS

The Federal Government has taken advantage of certain transitional exemptions available to first time adopters of IPSAS as stated within the Accounting Policies Note. The exemptions in respect of Accounting for revenues and assets affect the fair presentation of the Financial Statements.

DEFICIENCIES IN THE FINANCIAL REPORTING AND CONSOLIDATION PROCESS

Deficiencies were noted in the process for consolidating the balances of Ministries, Departments and Agencies into one economic entity. There were significant discrepancies in the accounting records as well as material balances which needs to be reconciled.

The consolidation boundary for the Federal Government's Financial Statements needs also to be adequately defined.

Responsibility for the financial statements

In accordance with the provisions of Finance (Control and Management) Act, Cap F26 LFN 2004, the Accountant-General of the Federation is responsible for the preparation and fair presentation of the Financial Statements of the Federal Government of Nigeria, in accordance with the international Public Sector Accounting Standards (IPSAS). The Accountant-General has thus prepared and submitted to me for audit the Financial Statements as produced at Section 12 of my report in accordance with Section 24 of the Finance (Control and Management) Act and Section 85(5) of the Constitution of the Federal Republic of Nigeria, 1999 (as amended).

AUDITOR-GENERAL'S CERTIFICATE - Contd.

Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on audit. I conducted my audit in accordance with the International Standards of Supreme Audit Institutions. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves the performance of procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes an evaluation of the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by management, as well as of the everall presentation of the financial statements.

I believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

Report on other legal and regulatory requirements

Furthermore, other than with respect to the matters stated within the basis for my opinion, the transactions of the Federal Government of Nigeria operations that have come to our notice or that we have tested as part of our audit have, in all significant respects, been accordance with the Financial Regulations and relevant legislative authorities.

The Federal Government sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Certain reserves (transitional reserves, revaluation reserve, available for sale assets reserves) are kept to manage the accounting processes for non-current assets, financial instruments and employee's retirement benefit. They do not represent usable resources for the Federal Government.
